## Scene 1

**Narrator:** Once upon a time, in the year 3023, there were princesses that ruled almost every land. On earth, there were many: Ember the dolphin princess was connected to the ocean and its dolphins, while warrior princesses and their best friends reigned in the forest lands. On Pluto, there lived Emma, princess of turtles. In Australia, there were no princesses but there are cool, interesting creatures that could talk such as bunnies, dragons, and unicorns. Earth has these too, and here in 3023 they are called puppies. Amidst all of the princesses and talking animals, on Earth, a great scientist will seek to connect people from all of the lands. This is their friendship story.

## Scene 2

**Narrator:** Our story begins in the science lab by the ocean, where Doctor Caroline has just arrived for the day.

**Caroline:** I can't wait to get started on my project!

**Narrator:** Doctor Caroline works on many things at once, but her biggest goal is to study the sun.

**Caroline:** Maybe today I will finally create the tools to study the sun.

**Narrator:** Doctor Caroline has tried every day and every way to find the right tools. She searched online, nothing. She tried studying the sun without tools, big mistake. She even tried creating her own tools, nothing (yet).

**Caroline:** I will not give up. Science needs to know more about the sun!

**Narrator:** Every day, outside of the lab, a cute little puppy sits waiting for someone to notice her. She has often tried to get the Doctor's attention, but with no luck.

**Ambush:** *\*Barks to try to get Caroline's attention, it doesn't work\** When will someone notice me and take me home.

**Caroline:** These tools are not working. I wish I had some help or even a friend here. It gets lonely in this lab.

**Ambush:** Hello!! I'm here!

*\*Caroline Is too distracted to notice\**

**Narrator:** Suddenly, Caroline had a great idea!

**Caroline:** I don't have to be lonely. I will create an invention that will allow me to connect with people all over the world! I will create a teleport device!

**Narrator:** In the year 3023, smartphones and facetime aren't a thing and surprisingly, teleportation hasn't been invented yet. So Doctor Caroline rushed towards the back of her lab to get to work.

**Ambush:** There she goes again. Oh well...

**Ember:** Excuse me, have you seen a giant crystal anywhere?

**Ambush:** No

**Ember:** I'm Ember and I'm on a mission to find one. I'm heading to the ocean but I might pass through later. Let me know if you see one!

**Ambush:** Okay. Hey wait!

**Narrator:** But it was too late for Ambush. Ember was too busy and was already gone. So Ambush decided to go wander around and see if anyone might stop and talk long enough to take her home. Meanwhile, Ember had just made it to the ocean.

### **Scene 3**

**Ember:** I love being the dolphin princess. I wish I had my full powers but when I collect the 4th crystal, I will.

**Narrator:** Ember has been on the hunt for the 4 crystals since she discovered she was the dolphin princess. She is very protective over her territory. She doesn't want to share her reign of the ocean with anyone or anything. Since she doesn't have her full powers, this is the only way to keep her people safe.

**Ember:** I will not let anything harm you, dolphins!

**Narrator:** What Ember didn't realize is that princess Emma from Pluto was hoping to visit the Earth's ocean.

### **Scene 4**

**Emma:** I've been stuck on Pluto for so long. I want to visit Earth and meet its turtles.

**Narrator:** Emma was the princess of turtles. All the turtles in her land loved her as their ruler but Emma has lived here her whole life. She needs a vacation and wants to meet the Turtles of Earth.

**Emma:** If only I weren't so scared.

**Narrator:** Just then, one of her turtles said "I think you could do it. Being brave is a choice. You just have to take the leap!"

**Emma:** I don't know. Maybe...

**Narrator:** Emma took a walk with these words ringing in her head. She decided that if she gets the chance to go, she will just go, even if she's scared.

## **Scene 5**

**Narrator:** Meanwhile, in the land of Australia...

**Bella:** For such a large island, it sure is lonely.  
*\*Walks up to narrator\**

**Bella:** Hi!

**Narrator:** AHH! YOU'RE A DRAGON! *\*Runs away\**

**Bella:** They always do that. I'm not that scary...

**Uni:** Woah... cool wings!

**Bella:** You think so?

**Uni:** YES. I've been waiting for my wings to come in but they haven't yet.

**Bella:** Wait, you're not scared of me?

**Uni:** No way. I want to be just like you. I'm Uni! Can I be your friend?

**Bella:** I'm Bella and I would love that.

**Narrator:** So they became friends. Each day they followed each other around. Bella was so happy just to have the company and Uni was trying to learn everything she could about flying if her wings come in. One day they were out walking and ran across a bunny that was crying.

**Uni:** Why are you crying?

**Choco:** I'm so hungry.

**Uni:** We can give you food.

**Choco:** Nothing tastes good anymore. All I want is to eat a carrot but there are none in our land.

**Uni:** She's right, I've never seen one.

**Choco:** I've looked everywhere. I've walked all of Australia and there's not a carrot in sight. I don't know what to do.

**Bella:** Well, I can fly really good. I've never tried to fly to America before, but I could try?

**Choco:** Really?? You would do that for me?

**Narrator:** So they followed each other back to Bella's house cave and made plans that they would leave to America the very next day.

## **Scene 6**

**Narrator:** While our friends in Australia were making those big plans, some warrior princesses in the forest were doing a good deed.

**Giselle:** There's one!

**Lucy:** And it's in perfect condition.

**Giselle:** This will get us a lot of silver... maybe even gold!

**Narrator:** Lucy and Giselle are twin warrior princesses in the land of the forest. They hunt for the most rare squishmellows and then sell them to people who want squishmellows of their own. They only keep enough silver and gold to take care of themselves. The rest they donate to the poor and needy in their community!

**Lucy:** Great timing. The old widow needs a new oven. We can help now!

**Giselle:** I love helping people.

**Narrator:** The twins were raised by a lion king here in the forest, which is why they are such good hunters. He was a good father to them and took them under his wing, even though he already had a child of his own- Sparkle.

**Sparkle:** Wait up!

**Lucy & Giselle:** Sorry Sparkle!

**Sparkle:** Did you find any squishmellows?

**Lucy:** We found a great one!

**Giselle:** Look!

**Sparkle:** It's beautiful!

**Lucy:** We will sell it later.

**Narrator:** Although our warrior princesses love what they do, they do get tired sometimes. Lately, they've been thinking about taking a small vacation and meeting new people.

**Giselle:** Let's go hunt for fruits and veggies for supper.

## **Scene 7**

**Narrator:** Meanwhile, back at the lab...

**Caroline:** There! My teleportation device is almost finished.

**Ambush:** Who will you call?

**Caroline:** How did you get in here?

**Ambush:** You left the door open.

**Narrator:** Doctor Caroline thought about that for a moment. How would she be able to call people she didn't even know? What will connect them all?

**Caroline:** I've got it! I will create a communication device that will call the strongest girls from all over the universe.

**Narrator:** And with that, Doctor Caroline rushed back to work.

**Ambush:** You're welcome! When will someone want me?

**Ember:** Hey cat! Any luck on the crystal?

**Ambush:** Nope.

**Narrator:** Just then there was a big crash! A spaceship had just landed on the ocean shore.

**Ember:** I've gotta go see what's happening!

## **Scene 8**

**Emma:** Woah, rough landing.

**Ember:** Excuse me, who are you?

**Emma:** My name is Emma, princess of the turtles. What's yours?

**Ember:** I'm Ember and I'm princess of the dolphins. This is my ocean.

**Emma:** I was just hoping to meet the Earth's turtles.

**Ember:** Not gonna happen. Unless...

**Narrator:** Just then, Ember had an idea. She looked at the spacecraft and thought 'surely this girl has enough money to help me find the final crystal. And by then, I will be so powerful I can just banish her.'

**Ember:** I need your help with something. Then, you can meet the turtles.

**Emma:** Okay!

**Narrator:** So they walked away as Ember explained her requests and Emma, being a little nervous already, agreed to help. Meanwhile in Australia...

## **Scene 9**

**Bella:** Okay, is everyone ready to go?

**Uni:** Ready!

**Choco:** Ready!!

**Bella:** Okay, load up and we will head for America!

**Narrator:** So they did just that. Bella flew for a long time, making good progress on their adventure until her wings suddenly started getting very tired.

**Bella:** Uh-oh, we're going down!

**Narrator:** And just like that, our friends landed in an unknown forest with a crash.

**Lucy, Giselle, and Sparkle:** What was that??

**Giselle:** LOOK!

**Lucy, Giselle, and Sparkle:** THREE GIANT SQUISHMELLOWS!

**Choco:** No! We are just animals from Australia. We were trying to land in America to find carrots.

**Narrator:** Our warrior princesses explained that this was the land of forests and they didn't have carrots here but could give them other things. Choco became upset again at this news. They had all worked so hard to get there. Everyone comforted Choco. At the same time in America, there was big news happening at the lab.

**Caroline:** I DID IT. I created the device that will allow me to talk to all of the bravest girls in the universe.

**Narrator:** This device Doctor Caroline made would open up a small portal in front of these girls which they would then be able to step through and teleport to each other if they so chose.

**Caroline:** Alright, let's do this.

**Narrator:** So she fired up the device and suddenly, there were portals opening up everywhere. One popped up in front of Princess Emma and Princess Ember at the ocean, and one popped up in the forest in front of our friends from Australia and the warrior princesses.

**Everyone:** Woah what's going on??

**Caroline:** Hi! I'm Doctor Caroline.

**Everyone:** Uhh.. hi?

**Caroline:** Don't freak out. This is my invention to connect all of the smartest and bravest girls in the world!

**Everyone:** Cool!

**Caroline:** I wanted to invite all of you to come here!

**Everyone:** How??

**Caroline:** Just step through the portal!

**Narrator:** All of the girls, being the smartest and bravest in the world, were too curious not to. So one by one, they each stepped through the portal and appeared in the Doctor's lab.

**Caroline:** Thank you for coming!

**Everyone:** Woah this is so cool.

**Emma:** Ember look, there's a crystal right there!

**Ember:** You're right. That's the last crystal I need! Now I will have the ultimate power!

**Caroline:** You can have it.

**Ember:** Thanks for finding that Emma. I'm sorry I was selfish. I was just worried about the dolphins. I will introduce you to the turtles.

**Emma:** Thank you!

**Choco:** Random question... but do you happen to have any carrots in your lab?

**Narrator:** Just then, everyone noticed a cute little puppy that had been sitting by the door this whole time.

**Everyone:** Oh my gosh what a cute little puppy! Come inside!

**Ambush:** You all noticed me...

**Narrator:** Doctor Caroline came back into the room with the carrots and Choco rejoiced. Just then she looked down and wondered why a puppy was in her lab.

**Ambush:** Don't you remember me? I sit outside your lab every day.

**Caroline:** I guess I've been too busy to notice.

**Ambush:** All I want is to be adopted.

**Caroline:** All I've wanted was a friend. And you've been outside the whole time but I was too busy to see.

**Narrator:** So Caroline decided that she would adopt the puppy and they would become best friends. The invention is great but she wanted someone to always be there which is the same thing Ambush wanted. So the girls all hung out for a while. Bella realized she is not scary, Choco finally ate some carrots, Ember found her fourth crystal and got her powers, Emma got to meet the turtles, and our warrior princesses were enjoying exploring this new land and finding squishmellows (they found one while here!). Doctor Caroline even gave Uni a drink she created that would help her wings grow! Doctor Caroline was so excited her invention worked, even if she was still not able to study the sun. When she told her new friends of this, the warrior princesses had an idea.

**Giselle, Lucy, and Sparkle:** Wait! *\*Hand her money\** Use this to help.

**Caroline:** With this amount of silver and gold I will have enough money to study the sun!

**Narrator:** Everyone agreed that this was the best day ever. Eventually, all of the girls teleported back to their house, except for Uni and Bella who decided they would test out the new wings and fly home. The girls agreed they would be friends forever and would use the teleport device once a week to visit with each other.

**Everyone:** And they all lived happily ever after!
